

SIMS REITERATES ATTACK ON DANIELS

Says Conditions in Navy Have
Been Shown to Be Worse
Than Charged.

COMPLAINS OF TIMIDITY

Asserts That 'Bold and Audacious Course' Urged by President Was Not Followed.

WASHINGTON, May 27.—Rear Admiral Sims today began efforts to scuttle Secretary Daniels' defense of the Navy Department's conduct of the war. Testifying in rebuttal before the Senate Naval Investigating Committee, the Admiral declared the Navy Department witnesses had revealed conditions in the navy "even more distressing than I could have imagined." He added that these witnesses had presented "a much more severe criticism of the deplorable conditions referred to than I myself have submitted."

Admiral Sims declared that what Secretary Daniels had described as President Wilson's "bold and audacious" policy for the navy was commendable, but the Navy Department, instead of following the Presidential plan as promulgated to the officers and men of the Atlantic Fleet in August, 1917, followed a "timid and hesitating course."

"The officer characterized the President's advocacy of operations by the fleet naval forces to bottle up the German submarines in their home ports as

TURN DOWN PLAN TO FEDERALIZE GUARD

Conferees Retain the Senate's
General Staff Formed on
French Army Lines.

WASHINGTON, May 27.—The army reorganization bill emerged today from conference shorn of Senate proposals for federalization of the National Guard, for a voluntary universal training system and for automatic revival of the war time selective service act on declaration of a war emergency.

As agreed to by the conferees the bill provides for a peace time regular army of 27,000 officers and men, including the Philippine scouts; for continuation of the National Guard substantially on the present basis and for the organization of an enlisted reserve corps liable for fifteen days of training duty a year except in case of war emergency.

The Senate proposal to create the post of Under Secretary of War, to have charge of procurement of war supplies, was accepted in substance by placing this duty on the Assistant Secretary at an increased salary of \$10,000 a year. The Assistant Secretary will function as a business manager. The bill also creates within the department a permanent war council composed of the Secretary, the Assistant Secretary, the General of the army and the chief of staff, which will determine military and munition problems.

Senate provisions reconstructing the General Staff on French army lines and making separate branches of the air service, signal corps and chemical warfare sections were retained. The force to include 1,514 officers and 16,000 men commanded by a Major General. For the line of the army 21 Major Generals, 46 Brigadiers, 225 Colonels, 674 Lieutenants-Colonels, 1,324 Majors and 4,490 Captains are provided. Chiefs of infantry, cavalry and field artillery are to be Major Generals. The summer training camp system is perpetuated to aid in developing reserve officers.

Direct representation of the National Guard on the General Staff was eliminated, but provision was made for assignment of Guard officers when needed by the department. Military rank for army nurses, the superintendent with rank of Major, also is provided.

FINDS BOLSHEVISM STRONG IN CHURCH

Dr. White Asserts I. W. W.
Philosophy Is Taught in the
Union Theological Seminary.

That "pure Bolshevism" was preached last Sunday in the Cathedral of St. John the Divine, that the philosophy of I. W. W.-ism is being taught in the Union Theological Seminary, that certain Y. M. C. A. workers are self-admitted Bolshevists and that "there are more radicals in the Interchurch World Movement than I have met anywhere else in thirty years of investigating," were some of the allegations made last night by Dr. C. Mowbray White of the National Civic Federation in an address on "Bolshevism in the Churches" before the Americanization Committee of the American Legion, meeting at the Automobile Club of America.

Dr. White asserted also that he has it on good authority that 250,000 "migratory radicals" made their way into this city recently for the principal purpose of an uprising on May Day, but that the wide publicity given to the scheme by Attorney-General Palmer frustrated them temporarily.

"I have it on the same good authority," he said, "that they are planning now to get up their revolt early in the fall."

Names Radical Preachers.

Dr. White said he had returned recently from a nationwide tour of investigation into radicalism, partly on his own account in connection with thirty years' inquiry into Socialism and partly by the National Civic Federation. But that he spoke only as an individual and had not completed his work for that society.

Declaring that the radicals of all sorts, in which he grouped Socialists, Communists, I. W. W. and Bolshevists as people "who think from the belt down," had succeeded in using the churches as means to spread propaganda, he said:

"First of all we have the Rev. Percy Grant. Several years ago I heard an I. W. W. man in his Ascension Forum and when I tried to answer him I was booed. While that philosophy of I. W. W.-ism was given forth in one part of the church it seemed plainly useless to be preaching Christianity in another part."

Then there is the Rev. Dr. Bernard Giddings Bell of St. Stephen's Protestant Episcopal Church at Annandale, N. Y. He preached nothing but I. W. W.-ism and Bolshevism pure and simple last Sunday in the Cathedral of St. John the Divine. I went with others, and we took notes and I can back up what I say.

The Rev. Harry W. Ward is a proponent of Christian ethics at the Union Theological Seminary, where he is preaching I. W. W.-ism all the time—not only preaches it but has got out two books that are undeniably I. W. W. He goes out a monthly for the Methodist Episcopal Church, at 150 Fifth avenue, that is unquestionably I. W. W. in the philosophy of most of its articles.

Finds Seminary Honeycombed.

"We were shocked enough by that," he discovered on further investigation that one-fourth the students in the seminary believe in the I. W. W. and are members of the Socialist party. If this many admit their connection, how many more may there be who also belong and have such principles? We all know, of course, that many of the professors at Columbia University are tainted with I. W. W.-ism and syndicalism, and that Harvard, too, has its professors leaning toward Bolshevism. In fact, there are leagues in seventy American universities that are nothing but branches of the Socialist party.

"I have had personal talks with Jerome Davis, who served in Russia for the Y. M. C. A. and recently has been prospecting for the interchurch world movement in the Russian colony in New York. He acknowledged he was a Bolshevik. Then there is Julius F. Hecker, a Methodist minister to whom our Government refused a passport to leave the country, who is a Russian investigator for the Y. M. C. A. at 347 Madison avenue. He even has a chapter in a book he is writing called 'Bolshevism Is the Coming Religion.'"

Even the Catholic Church is included. Dr. White said in reply to a question, He asserted that his investigations have disclosed a "Catholic Socialist party" in the Bronx, and that the names of several Catholic priests who are "under suspicion" have been turned over to John B. Kennedy of the Knights of Columbus for investigation. Two Knights in the audience asked him to mention names, but he refused.

Long Island Road for Fare Boost.

Applications of the Long Island Railroad Company for increases in fares will be filed tomorrow with the Interstate Commerce and the Public Service Commissions. It was announced yesterday at offices of the company. The new rates would become effective July 1 and apply to commutation, school and trip tickets, as well as local fares on the lines from Atlantic Avenue, Brooklyn, to Jamaica and Queens. Applications affecting all other divisions of the road will be filed a week later.

General Electric Manager to Quit.

Schenectady, May 27.—George E. Emmons will announce tomorrow his resignation as general manager of the General Electric plant in this city, that he may more fully attend to his duties as vice-president, which includes supervision of all plants of the company.

HARTFORD BOMB SET OFF BY SOME JOKER

Major-Gen. Burpee Offers
\$300 Reward for Mischance.

HARTFORD, May 27.—That the bomb explosion in the cellar kitchen of the State Armory and Arsenal at Hartford Wednesday night was intended as a practical joke is the view reached by Major-Gen. L. P. Burpee, president of the Military Emergency Board, who made an inquiry into the explosion.

"I do not believe that the bomb was placed where it was with the intention of injuring any of the guardsmen," declared Gen. Burpee. "From present circumstances it looks as though some person thought it would be a good joke to set off such a bomb and cause a scare."

Gen. Burpee authorized today the offering of a reward of \$300 for information that would lead to the arrest and conviction of the "joker."

**BANK CLERK ACCUSED
OF \$34,700 ROBBERY**

**\$10,000 Found on Hartford
Man When Arrested.**

HARTFORD, May 27.—Accused of misappropriation of \$34,700 of funds of the Phoenix National Bank by steady manipulations for years, which he had concealed so cunningly that he escaped attention of Federal examiners and auditors until recently, Augustus H. Schumacher, a bank employee for thirty-three years, and with the Phoenix bank for six years was arrested today as he left the city by Deputy United States Marshal McCarthy. The sum of \$10,000, which was found on his person, was seized as part of the alleged embezzlement.

Schumacher was arraigned before Commissioner Corbett and in default of \$10,000 bonds was sent to jail. He pleaded not guilty. His attorney, Harris B. Freeman, said Schumacher had been extravagant in his living expenses and had been endeavoring to recoup by manipulation of large accounts, not in stock operations. The attorney was said to have stated Schumacher's mind had become affected by these operations.

Levee Break Below New Orleans.

NEW ORLEANS, May 27.—Relief and repair boats were rushed today to Scarsdale, eighteen miles below New Orleans, where the main levee has broken, threatening heavy damage to plantations and truck farms. The break was estimated to be about thirty feet in length, and doubt was expressed that it could be repaired because of the extremely high water.

SEES NEED OF MORE RAILROAD MILEAGE

Western Witness Tells I.C.C.
of High Production.

WASHINGTON, May 27.—Opening the case of Western railroads, requesting a 24 per cent. increase in freight rates, S. M. Felton, president of the Chicago and Great Western Railroad, told the Interstate Commerce Commission today that additional returns were needed by the carriers to keep pace with business and serve the public welfare.

Ability to handle expected capacity production of American industries, Mr. Felton said, only is possible if, through the investment of new capital, the railroads are enabled to increase their mileage and improve their facilities.

Final testimony for the railroads of the Eastern and Southern territories was presented today and it is expected that the carriers will complete their direct statements to-morrow, after which the hearings are to adjourn for a week to enable shippers to prepare for cross-examination.

TRY FREE SEED COMPROMISE.

Senate Votes for Distribution by
Agriculture Department.

WASHINGTON, May 27.—A compromise in the dispute over continuing Government free seed distribution was offered today by the Senate, which voted 29 to 23, to provide \$75,000 for such distribution by the Department of Agriculture in lieu of House appropriation of \$250,000 for free seed gifts by members of Congress.

During the debate the seed gifts were denounced as "Congressional graft" and "a cheap demagogic way of appealing to the people."

\$438,000,000 FIXED FOR NAVAL BUDGET

Conferees Reach an Agreement
on Appropriation Bill Cover-
ing Next Year.

WASHINGTON, May 27.—Next year's naval budget was fixed at about \$438,000,000, under a complete agreement on the naval appropriation bill reached today by Senate and House conferees. The original House bill carried \$425,000,000 and the Senate about \$457,000,000.

The conferees agreed on \$20,000,000 for navy aviation, a compromise between the \$15,800,000 voted by the House and \$25,000,000 by the Senate.

In lieu of the Senate appropriation of \$1,000,000 to begin work on the new Pacific coast base in San Francisco Bay, the conferees authorized a Congressional commission of five Senators and five Representatives to investigate available sites on San Francisco Bay and report to Congress not later than December 31.

The permanent strength of the Marine Corps was placed at 27,400, and the Senate proposal for department development of naval oil lands not in litigation was agreed to.

Senate plans for the naval reserve forces also prevailed, but with \$50,000 appropriation instead of \$500,000. Items dropped included Boston dry dock, \$300,000; Puget Sound oil storage, \$1,050,000; railroad connection, Las Animas, Cal. (hospital), \$60,000; Newport to station, \$200,000.

Increases approved included Great Lakes to \$575,000, and \$200,000 additional for receiving barracks, \$100,000 each for new cranes at Brooklyn and Philadelphia and \$50,000 for New London, Conn., submarine base.

TO DEPORT 8,800 ALIEN INSANE.

800 of Them in This State Cost
\$300,000 a Year.

Special to THE SUN AND NEW YORK HERALD.
ALBANY, May 27.—About 880 alien insane, who are being cared for in the institutions of this State at a cost of \$300,000 a year, will probably be deported with 6,000 alien insane in this country whom the United States Bureau of Immigration is planning to send back to Europe. A representative of the bureau conferred with the State Hospital Commission today concerning the alien insane in public institutions in this State.

The sending of these people back to their home countries will greatly relieve the overcrowded conditions of the New York hospitals.

DRY LEAGUE CLEAR OF LOBBY CHARGE

Grand Jury Files Report—
Civil Action Still Open.

Special to THE SUN AND NEW YORK HERALD.
ALBANY, May 27.—No criminal charge has been made against the Anti-Saloon League and its legislative agents by the Grand Jury of Albany county, although the bringing of a civil action is being considered by Attorney-General Charles D. Newton.

The jury reported today that it had found no indictment on the charge that the league's registered lobbyists, Robert G. Davey and Mrs. Adella Potter, had violated the legislative law in not filing with the Secretary of State a statement of their expenses at the end of the 1919 session of the Legislature. Violation is made a misdemeanor, punishable by a fine of \$1,000 or one year in jail. There also is a civil penalty of a fine of \$100 a day for every day of failure to file the statement.

The charges were made by Assemblyman Louis A. Cuvillier, who introduced in the Legislature the resolution to investigate the league's political activities. At the same time he sent a request to Attorney-General Newton asking him to take action in the courts to collect the \$100 a day fine. It was learned today that Mr. Newton had assigned the case to one of his deputies. He may announce his decision on his return to Albany to-morrow. A verdict against the league might result in imposing a fine aggregating more than \$40,000.

Both Mr. Davey and Mrs. Potter appeared before the Grand Jury in its investigation.
